SAFETY INSTRUCTIONS

General
Always fully read this manual before installing or using Gumax® glass sliding doors (hereinafter also referred to as the ‘Product’). You must follow the instructions in this manual at all times. Failure to follow instructions correctly may result in property damage or personal injury. In addition, failure to follow instructions will result in voiding the warranty.

Please carefully keep this manual so that you or another user can refer to it at any time. If the Product is sold or passed on to third parties, please pass on the safety instructions as well.

If you have any questions that are not answered in this assembly manual, please contact your sales representative. Do you not have sufficient experience to install or assemble the Product? Then engage a professional.

Illustrations in these transport and assembly instructions are for a general basic understanding and may deviate from the actual version of the product.

This manual is copyrighted and intended for use only with the product. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher.

Always keep the unassembled products out of the reach of children.

Intended use
This product is intended to be mounted on the front and/or side under a Gumax® veranda.

This product has been specifically designed and developed to be used under normal usage conditions only.

Transport
During transport, secure the Product in such a way that it cannot move and therefore cannot be damaged.

Transport and store the Product in its original packaging in a safe and dry place at all times.

Use glass lifters with a minimum carrying capacity of 75 kg per glass lifter to easily handle the glass.

To prevent damage to the glass panels, it is recommended to store, transport and handle them vertically only and not place them on a hard or uneven surface.

Means of transport must be suitable for the weight of the transport units and must be approved for transport.

Inspection
Check the contents in advance for quantities and damage and lay out the parts clearly.

Before assembling a part, verify that it is free of defects and test the Product. If you notice a (possible) defect, take pictures of it and contact your supplier.

Immediately cease use or installation if a possible defect is detected. If you nevertheless install and/or use the Product, Gumax® is not liable for any consequences.

Installation
Make sure there is a safe environment during installation. Make sure all measures are taken to work safely before starting installation and make sure no persons not involved in the installation are around.

Assembling the product requires at least 2 adults. This way you can easily screw in parts while someone else holds them in the right position. Always use the prescribed bolt and screw connections.

Work safely. Follow the safety instructions of the tools you use.

Use only the supplied parts. Use of other items may damage the Product or lead to dangerous situations.

Do not touch the product with sharp tools.

Place the glass doors with the Gumax® logo facing toward the inside.

It is important that the foundation of the glass sliding doors is level to avoid cracks.

If you provide it yourself, always make sure that the foundation under the glass sliding door can bear a weight of up to 390 kg per linear meter.

Always transport glass panels on their side, preferably with suction cups. When glass plates are picked up horizontally, they can break due to the tension that is applied to the centre of the panel.

Do not place several sliding door systems against each other as this can cause damage or defects.

Use
Keep small parts out of the reach of children. This Product is not designed or intended as a toy for children.

Avoid exposure of the Product to open flames.

All packing material of the Product must be removed from the Product before taking it into use.

In the event of extreme (weather) conditions (including strong winds, heavy snowfall, large hailstones, earthquakes), extra caution and precautions must be taken. Take protective measures in advance and ensure that the Product is not used by yourself or others during the extreme (weather) conditions. If you notice a (possible) defect, observe safety measures. Make sure that nobody stands under or near the defective Products and call in an expert.

Be careful when moving the glass sliding doors because if your fingers or hand become(s) trapped between two glass panels, it may cause injury.

If it is likely that safe use is no longer possible, decommission the Product and safeguard it against unintended use. Assume that safe use is no longer possible if:
- the Product has any visible damage or abnormalities
- the Product does not function or no longer functions properly
- the Product has been stored under unfavourable conditions for a long period of time
- the Product has been subjected to heavy transport loads

Do not attach additional objects such as ropes or chains to the product. Use the product for its intended purpose only.

It is your own responsibility to assess or have a third party assess what foundation is necessary for the products you want. Tuinmaximaal and Gumax® sell certain foundation materials. However, these are not suitable in all situations. We do not offer advice on this, because we do not know your specific situation.

Maintenance and cleaning
Periodically, at least annually, inspect the Product for secure attachment and for defects that may interfere with safe use of the Product. If any part is damaged, the Product must not be used.

During maintenance or cleaning work, be aware of sharp edges and protruding parts. Use hand protection if necessary.

Do not rinse or spray the Products with water. This can lead to short circuit. Use a slightly damp cloth to clean the Products. Do not use (aggressive) cleaning agents.

Warranty and liability
Making changes to the Product outside of Gumax®'s control always results in the lapse of Gumax®'s liability. Your warranty will also be voided in this case. Changes here mean operations other than those specified in the installation manual.

Do not attempt to repair the Product on your own. Improper repairs can create dangerous situations and result in voiding of warranty and liability.

The use of non-Gumax® parts in conjunction with the Product will void the warranty on the Product.

Gumax® cannot be held liable for any damage to your property.

Gumax® is not liable for consequential damage, damage to objects or persons as a result of failure to observe the safety instructions and/or improper use or as a result of wear and tear. Product design, composition and specifications are subject to change without notice.

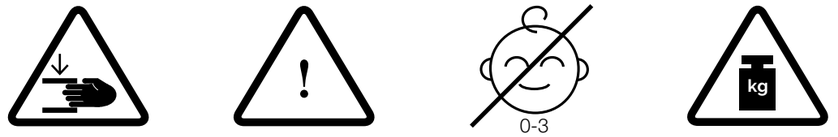

All logos and trade names used are registered trademarks of their respective owners and are hereby acknowledged as such.

The manufacturer is not liable for damage caused by the following: non-observance of this manual, incorrect use, non-observance of the recognised technical rules, unauthorised modification, technical changes to the product.

In addition to the provisions in this manual, the agreed obligations and general terms and conditions of the supplier and the warranty conditions of the manufacturer also apply.

SICHERHEITSHINWEISE

Allgemeines
Lesen Sie diese Anleitung immer vollständig durch, bevor Sie die Glasschiebewand (im Folgenden auch als „Produkt“ bezeichnet) installieren oder verwenden. Sie müssen die Anweisungen in dieser Anleitung jederzeit befolgen. Die Nichtbeachtung der Anweisungen kann zu Sachschäden oder Verletzungen führen. Darüber hinaus führt die Nichtbeachtung der Anweisungen zum Erlöschen der Garantie.

Bitte bewahren Sie diese Anleitung sorgfältig auf, damit Sie oder andere Benutzer jederzeit darauf zurückgreifen können. Bei Verkauf oder Weitergabe des Produkts an Dritte müssen Sie die Sicherheitshinweise weitergeben.

Wenn Sie Fragen haben, die in dieser Montageanleitung nicht beantwortet werden, wenden Sie sich bitte an Ihren Händler. Haben Sie nicht genug Heimwerkererfahrung, um das Produkt zu installieren oder zu montieren? Dann beauftragen Sie einen Fachmann.

Die Abbildungen in dieser Transport- und Montageanleitung dienen dem allgemeinen Grundverständnis und können vom tatsächlichen Produkt abweichen.

Diese Anleitung ist urheberrechtlich geschützt und nur zur Verwendung mit dem Produkt bestimmt. Kein Teil dieser Publikation darf ohne vorherige schriftliche Genehmigung des Herausgebers reproduziert, verteilt oder in irgendeiner Form oder mit irgendwelchen Mitteln übertragen werden, einschließlich Fotokopieren, Aufzeichnen oder andere elektronische oder mechanische Methoden.

Bewahren Sie unmontierte Produkte stets außerhalb der Reichweite von Kindern auf.

Beabsichtigte Verwendung
Dieses Produkt ist für die Montage an der Front und/oder an der Seite unter einer Gumax®-Terrassenüberdachung vorgesehen.

Dieses Produkt wurde speziell für den Einsatz unter normalen Gebrauchsbedingungen entwickelt.

Transport
Sichern Sie das Produkt während des Transports so, dass es sich nicht bewegen kann und somit nicht beschädigt wird.

Transportieren und lagern Sie das Produkt stets in der Originalverpackung an einem sicheren und trockenen Ort.

Verwenden Sie Saugheber mit einer Mindesttragfähigkeit von 75 kg pro Heber, um die Handhabung der Glasplatten zu erleichtern.

Um Beschädigungen der Glasplatten zu vermeiden, ist es ratsam, sie senkrecht zu lagern, zu transportieren und zu handhaben, und nicht auf harten oder unebenen Oberflächen abzustellen.

Transportmittel müssen für das Gewicht der Transporteinheiten geeignet und für den Transport zugelassen sein.

Prüfung
Prüfen Sie den Inhalt vorab auf die richtige Menge und auf etwaige Schäden und legen Sie die Teile übersichtlich aus.

Prüfen Sie vor dem Zusammenbau eines Teils, ob es frei von Mängeln ist und testen Sie das Produkt. Wenn Sie einen (möglichen) Defekt feststellen, fotografieren Sie ihn und kontaktieren Sie Ihren Lieferanten.

Wenn Sie einen möglichen Defekt bemerken, stellen Sie die Verwendung oder Installation des Produkts sofort ein. Sollten Sie das Produkt dennoch installieren und/oder verwenden, haftet Gumax® nicht für etwaige Folgen.

Installation
Sorgen Sie während der Installation für eine sichere Umgebung. Vergewissern Sie sich vor Beginn der Installation, dass alle Maßnahmen zum sicheren Arbeiten getroffen wurden und dass sich keine Personen in der Nähe aufhalten, die nicht an der Installation beteiligt sind.

Für die Montage des Produkts werden mindestens 2 Erwachsene benötigt. Auf diese Weise können Sie die Teile einfach festschrauben, während jemand anderes sie in der richtigen Position hält. Verwenden Sie immer die vorgeschriebenen Bolzen- und Schraubverbindungen.

Arbeiten Sie sicher. Befolgen Sie die Sicherheitshinweise für die von Ihnen verwendeten Werkzeuge.

Verwenden Sie nur die mitgelieferten Teile. Die Verwendung anderer Gegenstände kann das Produkt beschädigen oder zu gefährlichen Situationen führen.

Berühren Sie das Produkt nicht mit scharfen Werkzeugen.

Platzieren Sie die Glastüren mit dem Gumax®-Logo auf der Innenseite.

Es ist wichtig, dass das Fundament der Glasschiebewände eben ist, um Lücken zu vermeiden.

Achten Sie immer darauf, dass das Fundament unter der Glasschiebewand ein Gewicht von bis zu 390 kg pro laufendem Meter tragen kann, wenn Sie das Fundament selbst erstellen.

Transportieren Sie Glasplatten immer auf der Seite, am besten mit Saughebern. Wenn Glasplatten flach angehoben werden, können sie aufgrund der Spannung in der Mitte der Platte brechen.

Installieren Sie nicht mehrere Schiebewandsysteme nebeneinander, da dies zu Schäden oder Defekten führen kann.

Verwendung
Bewahren Sie Kleinteile außerhalb der Reichweite von Kindern auf. Dieses Produkt ist nicht als Spielzeug für Kinder konzipiert oder gedacht.

Vermeiden Sie die Einwirkung von offenen Flammen auf das Produkt.

Das gesamte Verpackungsmaterial des Produkts muss vor dem Gebrauch vom Produkt entfernt werden.

Im Falle extremer (Wetter-)Bedingungen (einschließlich starker Winde, starker Schneefälle, großer Hagelkörner, Erdbeben) sind besondere Vorsicht und Vorkehrungen erforderlich. Treffen Sie im Voraus Schutzmaßnahmen und sorgen Sie dafür, dass das Produkt bei extremen (Wetter-)Bedingungen nicht von Ihnen oder anderen benutzt wird. Wenn Sie einen (möglichen) Defekt feststellen, treffen Sie geeignete Sicherheitsvorkehrungen. Vergewissern Sie sich, dass sich niemand unter oder in der Nähe der defekten Produkte befindet und ziehen Sie einen Fachmann hinzu.

Wenn anzunehmen ist, dass ein gefahrloser Betrieb nicht mehr möglich ist, nehmen Sie das Produkt außer Betrieb und sichern Sie es gegen unbeabsichtigten Gebrauch. Es ist anzunehmen, dass ein gefahrloser Betrieb nicht mehr möglich ist, wenn:
- das Produkt sichtbare Schäden oder Mängel aufweist
- das Produkt nicht oder nicht mehr richtig funktioniert
- das Produkt längere Zeit unter ungünstigen Bedingungen gelagert wurde
- das Produkt schweren Transportlasten ausgesetzt war

Befestigen Sie keine zusätzlichen Gegenstände wie Seile oder Ketten an dem Produkt. Verwenden Sie das Produkt nur für seinen vorgesehenen Zweck.

Es liegt in Ihrer eigenen Verantwortung, zu beurteilen (oder beurteilen zu lassen), welches Fundament für die von Ihnen gewünschten Produkte erforderlich ist. Tuinmaximaal und Gumax® verkaufen bestimmte Fundamentmaterialien - diese sind jedoch nicht in allen Situationen geeignet. Wir können Sie diesbezüglich leider nicht beraten, da wir Ihre Situation nicht kennen.

Seien Sie vorsichtig, wenn Sie die Glasschiebetür bewegen, da sich Ihre Finger oder Ihre Hand zwischen zwei Glasscheiben einklemmen können, was zu Verletzungen führen kann.

Wartung und Reinigung
Überprüfen Sie das Produkt regelmäßig, mindestens einmal im Jahr, um sicherzustellen, dass es sicher befestigt ist und keine Mängel aufweist, die den sicheren Gebrauch des Produkts beeinträchtigen könnten. Wenn ein Teil beschädigt ist, darf das Produkt nicht verwendet werden.

Achten Sie bei Wartungs- oder Reinigungsarbeiten auf scharfe Kanten und hervorstehende Teile. Verwenden Sie bei Bedarf einen Handschutz.

Spülen oder sprühen Sie die Produkte nicht mit Wasser ab. Dies kann zu Kurzschlüssen führen. Verwenden Sie ein leicht feuchtes Tuch, um die Produkte zu reinigen. Verwenden Sie keine (aggressiven) Reinigungsmittel.

Garantie und Haftung
Änderungen an dem Produkt, die außerhalb der Kontrolle von Gumax® liegen, führen in jedem Fall zum Erlöschen der Haftung von Gumax®. In diesem Fall erlischt auch Ihre Garantie. Der Begriff „Änderungen“ bezieht sich in diesem Zusammenhang auf Eingriffe, die nicht in der Installationsanleitung angegeben sind.

Versuchen Sie nicht, das Produkt selbst zu reparieren. Unsachgemäße Reparaturen können zu gefährlichen Situationen führen und die Garantie und Haftung erlöschen lassen.

Die Verwendung von Nicht-Gumax®-Komponenten in Kombination mit dem Produkt führt zum Erlöschen der Garantie für das Produkt.

Gumax® kann nicht für Schäden an Ihrem Zuhause/Eigentum haftbar gemacht werden.

Gumax® haftet nicht für Folgeschäden, Sach- oder Personenschäden, die durch Nichtbeachtung der Sicherheitshinweise und/oder unsachgemäßen Gebrauch oder durch Verschleiß entstehen. Produktdesign, -zusammensetzung und -spezifikationen können ohne vorherige Ankündigung geändert werden.

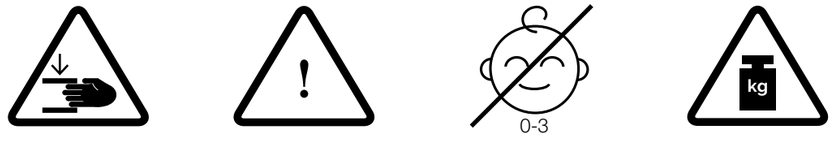

Alle verwendeten Logos und Markennamen sind eingetragene Marken der jeweiligen Eigentümer und werden hiermit als solche anerkannt.

Der Hersteller haftet nicht für Schäden, die durch Folgendes verursacht werden: Nichtbeachtung dieser Anleitung, nicht bestimmungsgemäße Verwendung, Nichtbeachtung der anerkannten Regeln der Technik, unerlaubte Veränderung, technische Änderungen am Produkt.

Zusätzlich zu den Bestimmungen dieser Montageanleitung gelten die vereinbarten Verpflichtungen und Allgemeinen Geschäfts=bedingungen des Lieferanten sowie die Garantiebedingungen des Herstellers.

FR

INSTRUCTIONS DE SÉCURITÉ

Généralités
Lisez toujours ce manuel dans son intégralité avant d'installer ou d'utiliser les portes et baies coulissantes Gumax® (ci-après également appelé : le « produit »). Vous devez suivre les instructions de ce manuel à tout moment. Le fait de ne pas suivre correctement les instructions peut entraîner des dommages matériels ou des blessures corporelles. En outre, le non-respect des instructions entraîne l'annulation de la garantie.

Conservez ce manuel pour pouvoir le consulter ultérieurement, par vous-même ou un autre utilisateur. Si le produit est vendu ou transmis à un tiers, veuillez lui transmettre les instructions de sécurité.

Si vous avez des questions auxquelles les présentes instructions de montage ne répondent pas, veuillez contacter votre revendeur. Si vous n'avez pas l'expérience nécessaire pour installer ou assembler le produit, vous pouvez le faire. Faites alors appel aux services d'un professionnel.

Les illustrations de ces instructions de transport et de montage servent à une compréhension générale de base et peuvent différer de l'article réel.

Ce manuel est protégé par des droits d'auteur et n'est destiné qu'à être utilisé avec le produit. Aucune partie de cette publication ne peut être reproduite, distribuée ou transmise sous quelque forme ou par quelque moyen que ce soit, y compris la photocopie, l'enregistrement ou d'autres méthodes électroniques ou mécaniques, sans l'autorisation écrite préalable de l'éditeur.

Garder à tout moment les pièces non-assemblées hors de portée des enfants.

Usage visé
Ce produit est destiné à être monté à l'avant et/ou sur le côté sous une véranda Gumax®.

Ce produit est spécifiquement conçu et développé pour une utilisation uniquement dans des conditions normales.

Transport
Fixez le produit pendant le transport de manière à ce qu'il ne puisse pas bouger et ne puisse donc pas être endommagé.

Transportez et stockez toujours le produit dans son emballage d'origine, dans un endroit sûr et sec.

Utilisez des ventouses porte-verre ayant une capacité de charge minimale de 75 kg par ventouse porte-verre pour manipuler le verre facilement.

Pour éviter d'endommager les panneaux de verre, il est recommandé de les stocker, de les transporter et de les manipuler uniquement à la verticale et non sur des surfaces dures ou inégales.

Les moyens de transport doivent être adaptés au poids des unités de transport et être agréés pour le transport.

Contrôle
Veuillez préalablement vérifier les quantités et d'éventuels dommages du contenu et disposez les pièces de manière clairement visible.

Avant de monter une pièce, vérifiez qu'elle ne présente aucun défaut et testez le produit. Si vous constatez un défaut (éventuel), prenez-en des photos et contactez votre fournisseur.

Si vous constatez un défaut éventuel, cessez immédiatement d'utiliser ou d'installer le produit. Si vous installez et/ou utilisez malgré tout le Produit, Gumax® n'est pas responsable des conséquences.

Installation
Veillez à créer un environnement sûr pendant l'installation. Avant de commencer l'installation, assurez-vous que toutes les mesures ont été prises pour travailler en toute sécurité et qu'aucune personne non concernée par l'installation ne se trouve à proximité.

Pour l'assemblage de l'article il faut au moins 2 adultes. Ceci permet de visser facilement les pièces pendant que l'autre personne les maintient dans la bonne position. Utilisez toujours les raccords à boulons et à vis prescrits.

Travaillez en toute sécurité. Suivez les consignes de sécurité des outils que vous utilisez.

N'utilisez que les pièces fournies. L'utilisation d'autres éléments peut endommager l'article ou entraîner des situations dangereuses.

Ne touchez pas l'article avec des outils tranchants.

Placez les portes en verre avec le logo Gumax® vers l'intérieur.

Il est important que la fondation des portes et baies coulissantes soit de niveau pour éviter les fissures.

Veillez toujours à ce que la fondation sous la porte et baie coulissante puisse supporter un poids de 390 kg par mètre courant si vous la prévoyez vous-même.

Transportez toujours les panneaux de verre sur leurs côtés, de préférence avec des ventouses. Lorsque les panneaux de verre sont pris à plat, ils peuvent se briser en raison de la tension exercée sur le milieu du panneau.

N'installez pas plusieurs systèmes de portes et baies coulissantes les uns à côté des autres, car cela pourrait entraîner des dommages ou des défauts.

Utilisation
Gardez les Petites pièces hors de portée des enfants. Ce produit n'est pas conçu ou prévu comme jouet pour les enfants.

Évitez d'exposer le produit à des flammes nues.

Tous les matériaux d'emballage du produit doivent être retirés du produit avant son utilisation.

Dans des conditions (météorologiques) extrêmes (notamment vents violents, fortes chutes de neige, fortes chutes de grêle, tremblements de terre), une prudence et des précautions supplémentaires sont nécessaires. Prenez des mesures de protection à l'avance et assurez-vous que le produit n'est pas utilisé par vous ou d'autres personnes dans des conditions (météorologiques) extrêmes. Si vous constatez un problème (éventuel), prenez des mesures de sécurité. Assurez-vous que personne ne se trouve sous ou à proximité des produits défectueux et faites appel à un expert.

Si vous pensez qu'un fonctionnement sûr n'est plus possible, mettez le produit hors service et protégez-le contre toute utilisation non intentionnelle. Partez du principe qu'un fonctionnement sûr n'est plus possible si :
- le produit présente des dommages ou des anomalies visibles
- le produit ne fonctionne pas correctement ou plus du tout
- le produit a été stocké pendant une longue période dans des conditions défavorables
- le produit a été soumis à de lourdes charges de transport

Ne pas fixer d'objets supplémentaires à l'article, tels que des cordes ou des chaînes. N'utilisez cet article que pour l'usage auquel il est destiné.

Il vous appartient d'évaluer (ou de faire évaluer) les fondations nécessaires pour vos produits souhaités. Tuinmaximaal et Gumax® vendent certains matériaux de fondation. Toutefois, ceux-ci ne conviennent pas à toutes les situations. Nous ne pouvons vous donner aucun conseil à ce sujet, car nous ne connaissons pas votre situation.

Soyez prudent lorsque vous déplacez les baies coulissantes en verre, car si vos doigts ou votre main se coincent entre deux panneaux de verre, cela pourrait provoquer des blessures.

Entretien et nettoyage
Vérifiez régulièrement le produit, au moins une fois par an, pour vous assurer qu'il est solidement fixé et qu'il ne présente aucun défaut susceptible d'empêcher une utilisation sûre du Produit. Si une pièce est endommagée, il ne faut pas utiliser le produit.

Pendant les travaux d'entretien ou de nettoyage, faites attention aux bords tranchants et aux parties saillantes. Utilisez une protection des mains si nécessaire.

Ne pas rincer ou vaporiser les produits avec de l'eau. Cela peut provoquer un court-circuit. Utilisez un chiffon légèrement humide pour nettoyer les produits. N'utilisez pas de produits de nettoyage (agressifs).

Garantie et responsabilité
Toute modification apportée au produit en dehors du contrôle de Gumax® annulera la responsabilité de Gumax® dans tous les cas. Dans ce cas, votre garantie sera également annulée. Dans ce contexte, on entend par modifications des opérations autres que celles spécifiées dans les instructions d'installation.

N'essayez pas de réparer le produit vous-même. Des réparations incorrectes peuvent entraîner des situations dangereuses et annuler la garantie et la responsabilité.

L'utilisation de pièces qui ne sont pas de Gumax® avec le produit annulera la garantie du produit.

Gumax® ne peut être tenu responsable des dommages causés à vos locaux/propriétés.

Gumax® n'est pas responsable des dommages indirects, des dommages matériels ou corporels résultant du non-respect des consignes de sécurité et/ou d'une utilisation inappropriée ou de l'usure. La conception, la composition et les spécifications du produit peuvent être modifiées sans notification préalable.

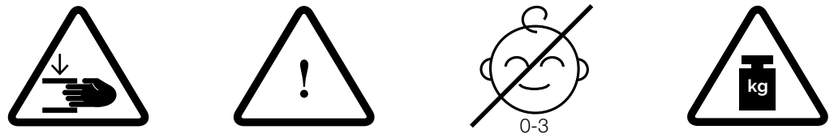

Tous les logos et noms commerciaux utilisés sont des marques déposées de leurs propriétaires respectifs et sont reconnus par la présente.

Le fabricant n'est pas responsable des dommages causés par : le non-respect de ce manuel, une utilisation inappropriée, le non-respect des règles techniques reconnues, une modification non autorisée, des changements techniques du produit.

Outre les dispositions du présent mode d'emploi, les obligations convenues et les conditions générales du fournisseur ainsi que les conditions de garantie du fabricant sont également applicables.

NL

VEILIGHEIDSVOORSCHRIFTEN

Algemeen
Lees deze handleiding altijd volledig door voordat u de Glazen Schuifwand (verder ook te noemen: het 'product') gaat installeren of gebruiken. U dient te allen tijde de instructies uit deze handleiding te volgen. Het niet correct opvolgen van instructies kan schade aan eigendommen of lichamelijk letsel tot gevolg hebben. Bovendien leidt het niet volgen van instructies tot verval van garantie.

Bewaar deze handleiding zorgvuldig zodat u of een andere gebruiker deze altijd kan raadplegen. Als het product wordt verkocht of doorgegeven aan derden, dient u de veiligheidsinstructies door te geven.

Mocht u vragen hebben die niet in deze montagehandleiding worden beantwoord, neem dan contact met uw verkoper op. Heeft u onvoldoende kluservaring voor het installeren of monteren van het product? Schakel dan een vakman in.

Afbeeldingen in deze montage- en transporthandleiding dienen voor een algemeen basisbegrip en kunnen afwijken van de eigenlijke versie van het product.

Deze handleiding is auteursrechtelijk beschermd en uitsluitend bedoeld voor gebruik met het product. Niets uit deze uitgave mag worden verveelvoudigd, verspreid of openbaar gemaakt, in enige vorm of op enige wijze, waaronder fotokopieën, opnamen of andere elektronische of mechanische methoden, zonder voorafgaande schriftelijke toestemming van de uitgever.

Houdt ongemonteerde producten te allen tijde buiten bereik van kinderen.

Beoogd gebruik
Dit product is bedoeld om te monteren aan de voor- en/of zijkant onder een Gumax® terrasoverkapping.

Dit product is specifiek ontworpen en ontwikkeld voor uitsluitend gebruik onder normale gebruiksomstandigheden.

Transport
Borg het product tijdens het transport op een dusdanige wijze dat deze niet kan beschadigen.

Vervoer en bewaar het product te allen tijde in de originele verpakking op een veilige en droge plaats.

Maak gebruik van glasdragers met een minimale draagkracht van 75kg per glasdrager om het glas gemakkelijk te hanteren.

Om schade aan de glazen platen te voorkomen wordt er geadviseerd deze enkel verticaal op te slaan, te transporteren en te hanteren en niet op een harde of oneffen ondergrond te plaatsen.

Transportmiddelen moeten geschikt zijn voor het gewicht van de transporteenheden en voor het transport toegelaten zijn.

Controle
Controleer vooraf de inhoud op aantallen en beschadigingen en leg de onderdelen overzichtelijk neer.

Voordat u een onderdeel monteert, controleert u of deze vrij is van defecten. Indien u een (mogelijk) defect constateert, maak hier foto's van en neem contact op met uw leverancier.

Staak bij het constateren van een mogelijk defect het gebruik of de installatie onmiddellijk. Indien u het product desondanks toch installeert en/of in gebruik neemt, is Gumax® niet aansprakelijk voor de eventuele gevolgen.

Installatie
Zorg dat er een veilige omgeving is gedurende de installatie. Zorg ervoor dat alle maatregelen getroffen zijn om veilig te kunnen werken voordat installatie wordt gestart en zorg dat er geen personen in de buurt zijn die niet bij de installatie betrokken zijn.

Voor het monteren van het product zijn tenminste 2 volwassenen nodig. Zo kunt u makkelijk onderdelen vastschroeven, terwijl iemand anders deze in de juiste positie houdt. Gebruik steeds de voorgeschreven bout en schroefverbindingen.

Werk veilig. Volg de veiligheidsinstructies van de gereedschappen die u gebruikt.

Gebruik alleen de meegeleverde onderdelen. Gebruik van andere artikelen kan het product beschadigen of leiden tot gevaarlijke situaties.

Raak het product niet aan met scherpe gereedschappen.

Plaats de glazen deuren met het Gumax® logo naar de binnenzijde.

Bij de fundering van de glazen schuifwanden is het van belang dat deze waterpas ligt om kieren te voorkomen.

Zorg er altijd voor dat de fundering onder de glazen schuifwand tot een gewicht van 390kg per strekkende meter kan dragen indien u deze zelf verzorgt.

Vervoer glazen panelen altijd op op de zijkant, bij voorkeur met zuignappen. Wanneer glazen platen vlak opgepakt worden kunnen zij namelijk breken door de spanning die op het midden van het paneel komt.

Plaats niet meerdere schuifwandsystemen tegen elkaar aan omdat er daardoor schade of gebreken kunnen ontstaan.

Gebruik
Houd kleine onderdelen buiten het bereik van kinderen. Dit product is niet ontworpen of bedoeld als speelgoed voor kinderen.

Voorkom blootstelling van het product aan open vuur.

Al het verpakkingsmateriaal van het Product moet verwijderd worden van het product, voor in gebruik name.

Bij extreme (weers)omstandigheden (waaronder harde wind, zware sneeuwval, grote hagelstenen, aardbevingen) is extra voorzichtigheid en zijn voorzorgsmaatregelen geboden. Neem vooraf beschermende maatregelen en zorg ervoor dat het product gedurende de extreme (weers)omstandigheden niet wordt gebruikt door uzelf of anderen. Als u een (mogelijk) defect constateert, neem dan veiligheidsmaatregelen in acht. Zorg ervoor dat niemand onder of in de buurt van de defecte producten is en schakel een deskundige in.

Wees voorzichtig bij het verplaatsen van de glazen schuifwanden, want als uw vingers of hand bekneld raken tussen twee glasplaten, kan dit letsel veroorzaken.

Als aannemelijk is dat veilig gebruik niet langer mogelijk is, stel dan het product buiten werking en borg het tegen onbedoeld gebruik. Ga ervan uit dat veilig gebruik niet langer mogelijk is als:
- het product enige zichtbare beschadigingen of afwijkingen vertoont
- het product niet of niet meer volledig naar behoren werkt
- het product gedurende langere tijd onder ongunstige omstandigheden is opgeslagen
- het product aan zware transportbelastingen onderhevig is geweest

Bevestig geen extra voorwerpen aan het product zoals touwen of kettingen. Gebruik het product enkel waarvoor het bestemd is.

Het is uw eigen verantwoordelijkheid om te (laten) beoordelen welke fundering noodzakelijk is voor de door u gewenste producten. Tuinmaximaal en Gumax® verkopen bepaalde funderingsmaterialen. Deze zijn echter niet in alle situaties geschikt. Wij geven u hierin geen advies, omdat wij uw situatie niet kennen.

Onderhoud en schoonmaak
Controleer het Product regelmatig, minimaal jaarlijks, op het stevig vastzitten en op gebreken die veilig gebruik van het product in de weg kunnen staan. Als een onderdeel beschadigd is, mag het Product niet worden gebruikt.

Let bij onderhouds- of schoonmaakwerkzaamheden op scherpe randen en uitstekende delen. Gebruik handbescherming indien nodig.

Spoel of spuit de producten niet af met water. Hanteer een licht vochtige doek om de producten schoon te maken. Gebruik geen (agressieve) schoonmaakmiddelen.

Garantie en aansprakelijkheid
Het buiten Gumax® om aanbrengen van wijzigingen aan het product leidt in alle gevallen tot het vervallen van aansprakelijkheid van Gumax®. Ook vervalt in dat geval uw garantie. Met wijzigingen wordt hier bedoeld: anders dan de in de installatiehandleiding vermelde bewerkingen.

Probeer niet zelfstandig het product te repareren. Verkeerde uitgevoerde reparaties kunnen voor gevaarlijke situaties zorgen en leiden tot verval van de garantie en aansprakelijkheid.

Bij het gebruik van onderdelen die niet van Gumax® zijn in combinatie met het product, zal de garantie op het product vervallen.

Gumax® kan niet aansprakelijk worden gesteld voor schade aan uw pand/eigendom.

Gumax® is niet aansprakelijk voor gevolgschade, schade aan voorwerpen of personen als gevolg van het niet in acht nemen van de veiligheidsinstructies en/of oneigenlijk gebruik of als gevolg van slijtage. Productontwerp, -samenstelling en -specificaties kunnen zonder voorafgaande kennisgeving worden gewijzigd.

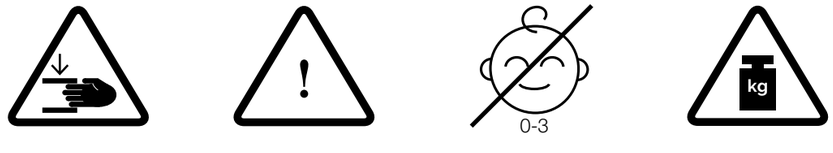

Alle gebruikte logo's en handelsnamen zijn geregistreerde handelsmerken van hun respectieve eigenaren en worden hierbij als zodanig erkend.

De fabrikant is niet aansprakelijk voor schade met de volgende oorzaken: niet in acht nemen van deze handleiding, niet beoogd gebruik, niet aanhouden van de erkende technische regels, eigenmachtige ombouw, technische veranderingen aan het product.

Naast het in deze handleiding bepaalde, gelden tevens de overeengekomen verplichtingen en algemene voorwaarden van de leverancier en de garantievoorwaarden van de fabrikant.

PL

INSTRUKCJA BEZPIECZEŃSTWA

Informacje ogólne
Przed instalacją lub użytkowaniem szklane drzwi przesuwne marki Gumax® (zwanego dalej „Produktem”) zawsze należy dokładnie zapoznać się z niniejszą instrukcją. Należy zawsze przestrzegać wytycznych zawartych w niniejszej instrukcji. Niestosowanie się do instrukcji w prawidłowy sposób może prowadzić do uszkodzenia mienia lub obrażenia ciała. Ponadto niestosowanie się do instrukcji spowoduje unieważnienie gwarancji.

Niniejszą instrukcję należy starannie przechowywać, aby każdy użytkownik mógł skorzystać z niej w dowolnym momencie. W przypadku sprzedaży lub przekazania Produktu osobom trzecim należy również przekazać instrukcję bezpieczeństwa.

W razie jakichkolwiek pytań, na które nie umieszczono odpowiedzi w niniejszej instrukcji montażu, prosimy o skontaktowanie się ze swoim przedstawicielem handlowym. Co zrobić w razie niewystarczającego doświadczenia w instalacji lub montażu Produktu? W takim przypadku należy zatrudnić fachowca.

Ilustracje zawarte w niniejszej instrukcji transportu i montażu mają na celu pomóc w ogólnemu zrozumieniu i mogą odbiegać od rzeczywistej wersji produktu.

Niniejsza instrukcja jest chroniona prawami autorskimi i przeznaczona wyłącznie do użytku z produktem. Żadna część tej publikacji nie może być powielana, rozprowadzania ani rozpowszechniana w jakiejkolwiek formie i w jakikolwiek sposób, w tym poprzez kserowanie, nagrywanie lub w inny sposób elektroniczny bądź mechaniczny bez uprzedniej pisemnej zgody wydawcy.

Niezmontowane produkty zawsze należy przechowywać w miejscu niedostępnym dla dzieci.

Zastosowanie Produktu
Ten produkt przeznaczony jest do montażu z przodu i/lub z boku pod zadaszeniem werandy Gumax®.

Ten produkt został specjalnie zaprojektowany i opracowany do użytku wyłącznie w normalnych warunkach.

Transport
Podczas transportu Produkt należy zabezpieczyć w taki sposób, aby nie mógł się przemieszczać, a tym samym ulec uszkodzeniu.

Produkt zawsze należy transportować i przechowywać w oryginalnym opakowaniu w bezpiecznym i suchym miejscu.

W celu łatwego przenoszenia szkła należy używać odpowiednich podnośników do szkła o minimalnej nośności 75 kg na podnośnik.

Aby zapobiec uszkodzeniu paneli szklanych, zalecamy przechowywanie, transport i przenoszenie ich wyłącznie w pozycji pionowej, a także nieumieszczanie ich na twardym lub nierównym podłożu.

Środki transportu muszą być odpowiednio dostosowane do masy jednostek transportowych i zatwierdzone do transportu.

Przegląd
Należy wcześniej sprawdzić zawartość pod kątem liczby elementów i uszkodzeń oraz wyraźnie rozmieścić poszczególne części.

Przed złożeniem każdej części należy sprawdzić, czy jest wolna od wad, a także przetestować Produkt. W razie zauważenia (potencjalnej) wady należy zrobić zdjęcia i skontaktować się z dostawcą.

W razie wykrycia ewentualnej wady należy bezzwłocznie zaprzestać użytkowania lub instalacji Produktu. Jeśli mimo wszystko Produkt zostanie zainstalowany i/lub użyty, wówczas firma Gumax® nie ponosi odpowiedzialności za żadne skutki tego działania.

Instalacja
Podczas instalacji należy zadbać o bezpieczeństwo środowiska. Przed rozpoczęciem instalacji należy podjąć wszelkie środki w celu zapewnienia bezpiecznej pracy oraz dopilnować, żeby w pobliżu nie było osób postronnych, niezaangażowanych w instalację.

Do zmontowania produktu potrzebne są co najmniej dwie osoby dorosłe. W ten sposób jedna osoba może skręcać części, podczas gdy druga podtrzymuje je we właściwej pozycji. Zawsze należy używać zalecanych śrub i połączeń śrubowych.

Należy pracować bezpiecznie. Należy stosować się do instrukcji bezpieczeństwa używanych narzędzi.

Należy używać wyłącznie części dostarczonych w zestawie. Korzystanie z innych przedmiotów, może uszkodzić Produkt lub prowadzić do powstania niebezpiecznych sytuacji.

Nie dotykać produktu ostrymi narzędziami.

Szklane drzwi należy umieścić tak, aby logo Gumax® było skierowane do wewnątrz.

W celu uniknięcia pęknięć ważne jest to, żeby podstawa szklanych drzwi przesuwnych była równa.

Jeśli użytkownik samodzielnie dokonuje montażu, zawsze powinien upewnić się, że fundament pod szklanymi drzwiami przesuwnymi wytrzyma ciężar do 390 kg na metr bieżący.

Panele szklane zawsze należy transportować na boku, najlepiej przy użyciu przyssawek. Kiedy panele szklane są podnoszone poziomo, mogą pęknąć z powodu naprężenia, które jest przyłożone do środka panelu.

Nie należy umieszczać kilku systemów drzwi przesuwnych przy sobie , ponieważ może to spowodować uszkodzenia lub wady.

Użytkowanie
Drobne elementy należy przechowywać w miejscu niedostępnym dla dzieci. Ten Produkt nie został zaprojektowany ani nie jest przeznaczony do użytku jako zabawka dla dzieci.

Należy unikać ekspozycji Produktu na działanie otwartego ognia.

Przez użyciem Produktu należy usunąć z niego wszystkie materiały opakowaniowe.

W razie ekstremalnych warunków (pogodowych) (m.in. takich jak silne wiatry, obfite opady śniegu, potężne gradobicia, trzęsienia ziemi) należy zachować szczególną ostrożność i podjąć stosowne środki zapobiegawcze. Należy wcześniej podjąć środki ochronne i dopilnować, żeby w ekstremalnych warunkach (pogodowych) Produkt nie był używany przez użytkownika ani żadną inną osobę. W razie zauważenia (potencjalnej) wady należy zastosować środki bezpieczeństwa. Należy dopilnować, żeby nikt nie stał pod wadliwym Produktem ani w jego pobliżu i wezwać fachowca.

Podczas przesuwania szklanych drzwi przesuwnych zachować ostrożność, ponieważ uwięzienie palców lub dłoni między dwoma panelami szklanymi może skutkować obrażeniami.

Jeśli istnieje prawdopodobieństwo, że użytkowanie Produktu nie jest już bezpieczne, wówczas należy wycofać Produkt z eksploatacji i zabezpieczyć przed nieumyślnym użyciem. Przyjmuje się, że bezpieczne użytkowanie Produktu nie jest już dłużej możliwe, jeśli:
- Produkt ma widoczne uszkodzenia lub nieprawidłowości
- Produkt nie działa już w ogóle lub nie działa prawidłowo
- Produkt przez długi czas był przechowywany w niesprzyjających warunkach
- Produkt poddano sporym obciążeniom podczas transportu

Nie doczepiać do produktu dodatkowych przedmiotów, takich jak liny czy łańcuchy. Produktu tego należy używać wyłącznie zgodnie z jego przeznaczeniem.

Obowiązkiem użytkownika jest samodzielne dokonanie oceny lub zlecenie stronie trzeciej oceny pod kątem fundamentu, jaki będzie niezbędny dla wybranych przez siebie produktów. Firmy Tuinmaximaal i Gumax® sprzedają niektóre materiały fundamentowe. Niemniej jednak nie są one odpowiednie we wszystkich sytuacjach. Nie oferujemy porad w tym zakresie, ponieważ nie znamy konkretnej sytuacji danego użytkownika.

Konserwacja i czyszczenie
Okresowo, przynajmniej raz w roku, należy dokonać przeglądu Produktu pod kątem bezpiecznego zamocowania oraz wad, które mogą zakłócać bezpieczne użytkowanie Produktu. Produktu nie wolno używać w przypadku uszkodzenia jakiejkolwiek jego części.

Podczas prac konserwacyjnych lub czyszczenia należy uważać na ostre krawędzie i wystające części. W razie potrzeby użyć środków ochrony rąk.

Produktu nie należy spłukiwać ani spryskiwać wodą. Może to doprowadzić do zwarcia. Do czyszczenia Produktu należy używać lekko zwilżonej ściereczki. Nie stosować (agresywnie działających) środków czyszczących.

Gwarancja i odpowiedzialność
Dokonywanie zmian w Produkcie bez zezwolenia firmy Gumax® zawsze skutkuje wygaśnięciem odpowiedzialności firmy Gumax®. W takim przypadku gwarancja użytkownika również zostaje unieważniona. Zmiany oznaczają w tym wypadku działania inne niż określono w instrukcji instalacji.

Nie należy próbować samodzielnie naprawiać Produktu marki Gumax®. Niewłaściwe naprawy mogą stwarzać niebezpieczne sytuacje oraz skutkować unieważnieniem gwarancji i odpowiedzialności.

Użycie w połączeniu z Produktem części innych niż marki Gumax® będzie skutkować unieważnieniem gwarancji na Produkt.

Firma Gumax® nie ponosi odpowiedzialności za żadne szkody na mieniu użytkownika.

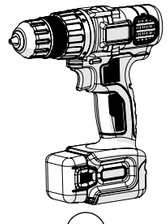

Firma Gumax® nie ponosi odpowiedzialności za szkody następcze ani za szkody rzeczowe i osobowe, do których dochodzi w wyniku nieprzestrzegania instrukcji bezpieczeństwa i/lub niewłaściwego użytkowania Produktu bądź wskutek jego zużycia. Projekt, kompozycja i specyfikacje Produktu mogą ulec zmianie bez wcześniejszego powiadomienia.

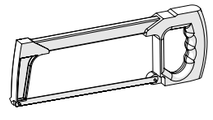

Wszelkie użyte znaki graficzne (logo) oraz nazwy handlowe są zastrzeżonymi znakami towarowymi ich odpowiednich właścicieli i niniejszym zostają uznane za takie.

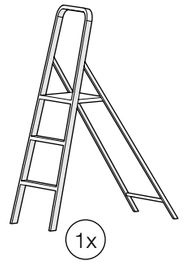

Producent nie ponosi odpowiedzialności za szkody powstałe w wyniku: nieprzestrzegania niniejszej instrukcji, niewłaściwego użytkowania, nieprzestrzegania przyjętych zasad technicznych, nieuprawnionych przeróbek oraz dokonywania zmian technicznych w produkcie.

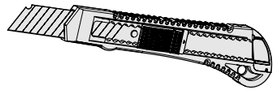

Oprócz postanowień określonych w niniejszej instrukcji obowiązują również uzgodnione zobowiązania i warunki ogólne dostawcy oraz warunki gwarancji producenta.
